6. Accidental Release Measures

Eliminate all sources of ignition
Wear personal protective equipment
Do not allow spill to reach watercourse or sewers
Contain spill with absorbent mats or booms or inert materials such as sand. Material should be readily available in the workplace.
Collect and store waste materials in suitable containers for disposal i.e. metal drums

7. Handling & Storage

Extinguish all sources of ignition in the work area. If the product is stored in metal containers the container must be grounded and bonded prior to dispensing the liquid. To prevent vapor escaping to the atmosphere keep all containers closed or covered. The product should be stored in a separate room equipped for flammable liquid storage or small volumes may be stored in a flammable liquid cabinet. Eyewash stations are required in the workplace. If eye irritation is encountered the use of a full facepiece respirator is recommended. Mechanical ventilation is recommended in enclosed workspaces. Area should be evacuated of all non essential personnel prior to application of product.
